At Vision we get results

We're not just a gym. Vision Personal Training provide small, friendly health and fitness studios to deliver the very best one on one educated advice and guidance in nutrition, cardio and resistance training that is guaranteed to help you reach your weight loss goals.

Many people are unaware that 70% of the result lies in nutrition and 30% in exercise. At Vision, we ensure your best results by providing you with a customised nutrition plan and your own Personal Trainer who is focused on working with you to achieve your exercise and nutrition goals. If this plan, when followed correctly, does not provide you with the results you deserve, we will not only give you your money back, we will happily continue training you for free until you do.

With Summer fast approaching allow us to help you create the body you desire.

Register at visionpt.com.au before 15th November to save \$147 and go into the draw to win \$10,000* cash.
